

2. Base bid information from Standard & Poor's Compustat. An bidder's *Acct Payable* is approximately equal to the number of days between the date of the invoice and the date of payment. The *Acct Payable* is divided by 360 to get the number of days between the date of the invoice and the date of payment.
3. A contractor's responsibility to business against the existing conditions, unexplained delays, and unforeseen conditions. Consideration with all relevant information or agents, including those affected by the contractor's Contractor's responsibility. The Contractor is required to obtain any necessary permits required from local authorities for work in the construction zone.
4. Contractor that is responsible for the safety of construction crews and the principle of safety of pedestrian safety from the construction material.
5. All unused materials must be removed from the site daily, or stored in such a way as to not produce noise or vibrations. All debris shall be removed and all waste made free of obstruction, and also left in a neat condition at the place of origin every day.

[illegible]

Diagram illustrating the structure of a tree and its root system, showing various components labeled with numbers 1 through 10.

- 1. Crown (the upper part of the tree, including branches and leaves)
- 2. Canopy (the upper part of the crown, where leaves are most dense)
- 3. Branch (a part of the tree that grows from the trunk or another branch)
- 4. Stem (the main vertical part of the tree, including the trunk and branches)
- 5. Trunk (the main vertical part of the tree, below the canopy)
- 6. Root (the part of the tree that grows underground)
- 7. Taproot (the main root that grows vertically downwards)
- 8. Lateral root (a root that grows horizontally from the taproot)
- 9. Root collar (the part of the trunk where it meets the roots)
- 10. Root system (the entire network of roots underground)

Labels on the right side of the diagram:

- 100 CM
